### AN OPEN LETTER To MOTHERS.

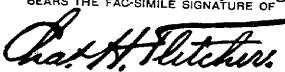

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE FULLSIVE USE OF THE WORD "CASTORIA" AND "PITCHER'S CASTORIA," AS OUR TRADE MARK. I, DR SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of hat Hilliam wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of Cast Ilitain wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is

### Facts Speak

The efforts of the New York Evening
Pos. to "down' the new tariff law are amusing I has been chattering like a margine about the failure of the law as a revenue producer, and at the very same with was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over the hody. I am yet the producer, and at the very same were cornwell, Conn. The efforts of the New York Evening revenue producer, and at the very same time we find the following in the Boston

Here we man the issuance in the Boston Heraid an anti protection paper. The first half of January has made its report in regard to the revenue, and the story is well worth nuting, for it shows that—to borrow Mr (.ladetone's famous phrase—the revenue is advancing "by leaps and bounds. Here is a continuous advance, tunn or the start of the sta leaps and bounds. Here is a continuous advance rouning at a very sapid rate, and exhibiting a greater improvement in January than has been seen in any month since september. With the maintenance of the present average throughout the remainder of the fixed year, the six months taken together would show a revenue distinctly larger than the expenditures during the same period one year back.

of course the people long since learned the impossibility of straching any degree of reliability to the tariff utterances of the Post, but there certainly ought to be a limit to its misrepresentations and to go on lampooning the tariff when the flerald is publishing such articles as that from which we have quoted only makes it ridiculous. For a paper that percent ignores all facts and figures, us hes the l'ost, it is of course, easy to make a side attack on the tariff on account of the condition of the cotton nd when it knows that the duties on ton a the new law are the same as in the (corman-Wilson law A little matter of fact like this, however, never stands in the way of the last while it has a

Congressional Elect ons of 1898. the Philadelphia Press says The most important political events of the year the will be the election of the members of the House of Representathe choice of the Sale Legi-litures which will elect successors to the I nited Sales Senators whose terms expire March 4 184 A full House of Representatives, numbering 15" members will be chosen to take the place of the present House The terms of thuty Senstors will also end with the present ougress but as two sents base siready been filled and the I grainture which to elect a third is now in seasing there will be twenty seven 1 sgislatures thosen this year to elect I nited States senators to the Fifty-rath Congress. There will also be twenty-eight Governors of States elected, beginning with th riection in Rhode Island April 6, and a host of minor State officers

Inere is some question as to the party anding of a few members of the preseat floure of Represensatives, but what - probably the most trustworthy divou gives the Republicans 204 the Demours 3 12; the Populists 27 and the Silverity 3 total 4.7. A majority of the clouse is 1 and the Republicans can retain that number and lose 27 seats. But If they lose 24 they will be reduced to a I is probable that there will be charge- esuiting in los-es and gains all parties. In the case of the Repub-I cans it u ust be remembered that twen-It five of their number in the present House came from the houthern States. bur most of them are from districts which are I kely to conticue to send hepublicans to Congres And in view of the growing manufacturing interests of he wouth it would not be surprising if the number of Republican protectionists from that neighborhood were increased to the fif v-91xth Congress. The Con. gressional election midway between two Presidential elections often results disas rously to the party in power, but there are to such dee ded indications that this all be the case this year as were seen in 1890 and 1894 There are local differences but there are no disistons in the Republic to party as to sta national poli-It ith uplou and barmor i in this respect the party should be able to retain control of the next House of Representa-Tres and possibly increase its present

It as a important for the Republicans to retain a majority in the House. There will probably be a little less difficulty in accomplishing the former than the latter (of the thirty I nited States Senators whose terms expire March 1 1000 and to regain control of the Senate as it 28 fors whose terms expire March 4, 1809, eleven are Republicans, fifteen are Democrats three are bilverites and one is a Populist. The names of these benators and the states from which they come are as follows it publicads Aldrich, Rhode I land , Burrows, Michigan; Clark, Wyoming Davis, Minnesota, Haie Maine, Hanns, Obio, Hawley, Connecticut, Lodge, Massachusetts, Proctor, Vermont, Quay, Pennsylvania, and Wilron, of Washington Demograta: Bate, Iennessee, Cockrell, Missouri, Daniel Virginia, Faulkoer, West Virg nia Money, Masissippi, Gor-man, Maryland, Gray, Delaware, Mills, Texas, Kitchell, Wisconsin, Mur. phy, New York, Pasco, Florida; Roach, Sorth Dakota , Smith, New Jersey , Turple, Indiana, and White, of California. niverites Caunon, I tah, Mantle, Mon-taus, and Stewart, Nevads, Populist. Alien, Nebraska. Of these prospective v cancies two have siready been filled by he reselection of Senators Hanna in Onlo and Daniel in Virginia. The Legleture which is to choose Mr. Gorman's anoceans is mow in session in Maryland.

This issues twenty-seven sents to fill.

The Senate as it now stands with one sent vacent consists of 43 Republicans, it Democrats, 9 Silverites and 6 Populists. A clear majority of a full Senate is 46 and to obtain this the Republicans, and to obtain this the Republicans.

Senate as it now stands with one is vecent consists of 43 Republicans, Democrata, 9 Silverites and 6 Populicans, Democrata, 9 Silverites and 6 Populicans, 46 and to obtain this the Republicans set gain at least three Senators.

Of the eleven prospective vecancies on the Republicans side of the Senate only we appear to be in doub—those from the property of the selected from both those States the Republicans will then seed to gain five Senators to give these and analysis of the Senate of the Senate of the Senators of the S

able. If all of them are carried the Re-Senators, increasing their number in the Senate, if Wyoming and Washington are lost, to 49, or three more than is neces-eary to a majority. There is a good chance also of gaining a Republican Sen ator in Delaware. So the prospects of obtaining a majority in the next Senate are bright. And with harmony in the party and good nominations a majority in the House should be elected also givin the House should be elected also giv-ing President McKinley full Congres-should support during the last two years ing President McKinley full Congres-

Mrs. Elba W. Mryo, of this city, has eccived the news of the death of ber grandmather, Mrs. Abigale Richardson, bich occurred at West E Isworth Mon lay. The deceased was 94 years of age. she was a widow of the late Wm. Rich. ordson, of West Elisworth. She leaves four cons, Isalah O. R chardson, of Orland, John H. and Albert R. Richardson, of Ellaworth, and Isaac L. Richardson of Bucksport. The funeral will be held Phuraday afternoon at 2 o'clock.

One of the novel features of the concert given in City Hall Monday night was the playing, by the band, of Bellstedt's Indian War Dance. It carried the listeners off to some distant host; country and made them are Sitting Bull and Old-Man-Afraid-of-His-Horse calmly moking their pipes while their braves tread the ground in a circle and brandshed their tomahawks in the air and whooped her up in wild and weird tones. The piece was very skillfully played and brought forth a sto-m of applause from the audience.

Some prank cutting-up boys and old nough to know better persuaded a little innocent urchia to place his tongue on the latch of one of the city school house doors fuesday morning telling him he could to te good things by so doing, and the result was that the little fellow left the kin of his tongue on the frosty troa and now he is unable to taste anything at all. Such boys as these should be compelled to rise and fall continually for a day on seats that are studded with

Although the fog was so thick at midnight Monday that you could almost cleave it with a knife, a Brewer man has the audacity to tell us he has seen it thicker and tells a story that was in- insells to Shuteens in All Departments wented by our great-great-grandfather. But since the story is so old, perhaps it will stand repeating without affronting any one: "When I was a boy," be be gins, "my father set me at work shingling his barn and having this job well under way I got up sarly one meraing to get a good start and finish it up that day. I unlocked the door of the house to go out, but found the door would not open. It was one of the doors that swong out," be added. "So I went to the window and raising it I found the log so thick I couldn't make an impresslog upon it with my hand any more than I could if it had been ice. I went into the woodhouse and got the axe and proceeded to cut my way out and down to the barn. That was about four o'clock in the morning, and, believe me or not, as you wish, it was ten o'clock in the forenoon before I reached the roof of that barn and had things in condition to

go to work. I began to lay a row of shingles, cutting my way slowly across the roof, and I shingled and shingled on that one row it seemed to me for hours. Thinks I to myself this roof is terrible long somehow, but I kept at it all day without ary dinner, bound to finish that one row if I never laid another shingle afterwards. But along towards night I began to get hungry and pretty soon I heard way off in the distance the old hore my father used to blow when meals were reads, so I gave up the job and proceeded to cut my way back to the house reaching there about ten o'cleck at night, weary and sore from the hard day's work. The next day the for cleared up, and lo and behold, when I went out to the tarn to see what I had done the day before I found I had shingled four rods right out on the fog without knowing it. That's what you can call thick fog," he concluded " and don't ever tell me again you have seen the fog so thick you could cut it with a kolfe." The Brewer man was immed and we will wager any one that he is.

OFFICIAL RECORD BLUNDER

The Date of Hamilton's Duel and Deat Entered Erroneously.

It is a cursus fact that the only official record of the dath of Alexander Hamilton on file in the bureau of vital statistics is erroneous and gives the deep of the statistics in erroneous and gives the date of his death as July 11 and the date of his duel with Aaron Burr as July 9. Every Woman Wants a Pretty Home.

The definess of woman's fingers enables her to turn and twist the things that are to did into decorations that are new and lovely in effect. She can select harmonious colors when she buys inexpensive furnishings and so tone the aspect of her home that rest and ease may welcome every new visitor. She may become so essential to the happiress of each child in the home that its first inquiry when returning from play or from school will be, "Is mother home?" She may live her young years over again with the loving childhood about her if she will share the joys and sorrows of her boys and girls. To every woman a home is essential, whether it may be her own or somebody cise's. But wherever she lives it is right that she should bring the heart into her life. Love begets love, and wherever it is present the joys of daily life counterbalance the ills. How to make a home? Why, let the two who build it be of one mind—that it is to te the happicest spot in the whole earth. The carders of the mill, 25 in number, also have been induced to join with the weavers in the active movement against the munagement of the mills and they, too, will organize.

At the mills today it was stated that the reduction would be enforced and that the works would remain idle until the employes were ready to accept the schedule. Fines and Losses.

Fines and Losses.

1,385 notices have been sent for overdue books and 30 second notices but no messanger has been required.

Five books were lost or damaged, and, in every case but one, the cost of the book was immediately paid.

At the annual leventory, in April, one book could not be found, but as it is a work of fiction, published forty jears age, the loss is small.

6 books, issued during 1897, specific charged but, without doub, will soon be returned.

The income from fines was \$130 26 and the amount still charged is \$2.08.

the amount still charged is \$2.08. Reading Room.

Reading Room.

36,859 bloks were used in the reading room; If 684 at the tables reserved for girls. There has been a steady increase in the number of girls using the reading room as the following statistics will show: In 1891, only 4.755 books were delivered to them; 1892, 5.111; 1893, 5.265; 1894, 5.949; 1895, 4.602; 1896, 10.721; and in 1897, 11,634.

The table of classified circulation gives the number of books, from each class, used in the reading room. Only 49 percent, of the books belonged in the d-partment of fiction.

In the report for 1.96, we expressed the hope that we should be able to use the new book-plates for the books furchased with the income of the literary fand and the Bapgor Mechanic A-sociation Fund during the year. As the book-plates were not ready until late in Docember, only the books purchased in November have them, as yet, but we shall continue the work with the books previously purchased as well as the new books, and in time expect to have all books properly labelled.

Our case of minerals have been care fully re-irranged by Miss Helen L. Newman, who has generously given much time to the work. A new catalogue will be prepared and the specimens re-numbered, making them much more useful than heretofore.

Respectfully submitted.

## CREDIT TO THE SERVICE.

Magnificent Showing of Co. 6. at Tuesday's inspection.

Col. Philbrook Highly Pleased with the Prevailing Conditions.

Complete Vindication of Capt. Deposit, the Company's Commander.

Col. G. A. Philbrook, of the Second Regiment, N. G. S. M., made an official whit to Co. G, of this city, last evening. The resu't is that the crack military or ganization is pronounced a great credit ment will be given by the ladies of the show no pawn ticket and Schneider was panies in every way in the atate. There consequently discharged. is also a complete viudication of Capt. S.anley P. Dennett from the charges made against him in print. The company is pronounced as having

never been in better condition and all the members assent to their loyalty to Capt. Dennett and their perfect satisfaction with all matters pertaining to the orgapization and commander. Co. G. is decided credit to the city, Col. Philbrook As stated Col Philbrook visited Co G

last evening at the armory, being accom panied by Medical Director R. J. Martin of Augusta, and Maj F A. Robinson, of this city. Every member of the com pany was present except those on fur lough and one min who is it, there be ceived with the honors befitting his rank The company was then put through a drill by Capt Denuett, using the new manual of arms, received only about four weeks ago. The companies are not expected to be proficient in the new manual before spring, but Co. G went through the drill with almost perfect precision and in a manner which drew forth praise from Col. Philbrook. Capt. Martin and Major Robinson. Col Philbrook told a WHIG man afterwards that the drill was "almost perfect; about as near as any company could get it." Attacks upon Capt. Dennett having

appeared in print, Col. Philbrook addressed the company, Capt. Dennatt withdrawing. Every member of the company was at liber'y to express his pinton and several made remarks. Each one spoke in the highest terms

of the captain and there was not a word of criticism or complaint. It was stated that if an election of captain were to take place that evening every vote would be cast for Capt. Dennett. Full loyalty to him was expressed and there was much enthusiasm about it. The following new members were mus-

tered in, after passing the examination by Medical Director Martin -George E Emery, W. L Deau, A. A. Powers, R. B. Dennett, T. H. Gilbert, G. Fletcher, R. B Robinson, R. L. Bohd, A H. Cotton.

One application was repeated. The new men are pronounced by Dr. Martin to be a fine body of men, their standing being first class. All are large sized

men and make a good appearance. A WHIG representative caw Col. Philbrook, Dr. Martin and Mej. Robinson after the inspection. Col. Philbreo stated that he was not under orders from Adj. Gen. Richards to inspect the com pany, as had been stated, that the Colonel may visit any company in his command at any time he sees fit. He had never received a word of criticism or censure concerning Capt Depuett or the company, and the only thing refle ing upon either was what he had seen in a Bangor paper. He stated that he was not responsible for anything appearing in the Commercial of last evening, that

he had not authoriz d any statement. He spoke in the bighest terms of the fine drill and appearance of Co. G, and especially of their company movements Said be: "You cannot speak too strongly on that point." He stated that the company had done better work than on the occasion of his visit last July, when they had been drilling constantly in preparation for the muster Col. Philrook further stated. "The personnel of the company is as good as any company in the service. And I would also like to say a good word for the non-

cers as there are in the service." Dr. Martin also expressed himself in complimentary terms. Maj. Robinson was greatly pleased with Co. G, as it is in his battalion and his home company. He pronounced it the rest company ever known in this city since he has been in the service. The result of the inspection is a complete vindication of Capt. Dennett and shows that Co. G is as fine an

organ zution as there is in the State After the appearance of the charges Capt. Descrett placed his resignation with Col Philbrook to be acted upon as be saw fir.

The valuable collection of rare and an cient books f om the library of the fate Prof. Telepit was tendered to the Bangor Public library for purchase, but the managers decided that the availab e funds being needed for the purchase of books for general use they did not feel authorized to devote any of them to obtaining volumes notable for rarity. There are 104 of the books, they are very valuable and would be a great addition to any library The oldest one dates back to 1455.

Mrs Ma y H, Curran was re-elected librarian and Miss A. E. Jewett, Miss Nettie M Prescott and Miss Mayberry, atsistant librarians. The following officers were elected for the ensuing year.
